SYSTIMAX[®] Solutions

Corporate Profile

SYSTIMAX Solutions™ is the global leader in structured connectivity solutions. Its parent company, CommScope Inc. (NYSE:CTV), is the world's largest manufacturer of broadband coaxial cable for HFC applications and a leading supplier of high-performance fiber-optic and twisted pair cables.

The SYSTIMAX[®] product portfolio includes some of the industry's highest performing connectivity solutions for voice, data, video and building management applications in both wired and wireless enterprise networks. According to independent research, SYSTIMAX SCS is the most widely used cabling system in the world with over 1,000 miles (1,600km) of SYSTIMAX cable being installed every day in approximately 120 countries.

Key to the SYSTIMAX SCS success is its commitment to manufacturing excellence and technological leadership through the on-going work of SYSTIMAX Labs, its global presence and reach, and its renowned 20-year extended product warranty and applications assurance.

Global Locations

SYSTIMAX Solutions is supported by over 1,000 people covering more than 100 countries and has four main manufacturing facilities around the world – Omaha, NE (USA), Bray (Ireland), Brisbane (Australia) and Jaguariuna (Brazil). Across all four plants, quality control standards are stringent and consistent in accordance with ISO-9001 certification.

SYSTIMAX Labs

SYSTIMAX Solutions prides itself on its technological leadership, which is maintained by employing world-class engineers and scientists. The SYSTIMAX Labs has a remarkable track record in innovation with over 600 active patents and applications worldwide. It aims to be the first to market with next generation, innovative systems and has consistently achieved that over the years with new Category 3,4,5 and 6 systems. SYSTIMAX Labs representatives are active participants in every major standard-setting body around the world.

Warranty

The SYSTIMAX Structured Connectivity Solutions (SCS) 20-year warranty is unique in that it provides applications assurance as well as an extended product warranty.

Global Presence

Through a global network of approximately 2,000 highly skilled BusinessPartners, SYSTIMAX Solutions has an established track record in supplying some of the world's leading companies, including three-quarters of the FORTUNE® 500.

Heritage

SYSTIMAX Solutions can trace its technological leadership back to Alexander Graham Bell's invention of the telephone and the first twisted pair technology in 1876, the foundation of AT&T in 1885 and Bell Laboratories in 1907. SYSTIMAX Solutions was introduced as AT&T Premises Distribution Systems (PDS) in 1983. In the late 1980's the SYSTIMAX brand was created and established as a leader in the cabling and connectivity industries in the midst of consecutive spin-offs from AT&T, Lucent Technologies and Avaya.

People with a Passion for Cabling

Throughout the SYSTIMAX Solutions organization the people have a shared passion for cabling. Most of the 1,000 employees have been a part of the SYSTIMAX Solutions organization through several owners and many can trace their involvement with the brand to AT&T days. A deep understanding of the issues and technological challenges and a commitment to being first to market with next generation solutions result from this continuity of relationships.

The organization is headed by:

Randy W. Crenshaw – Executive Vice-President and General Manager, Enterprise Solutions (more than 20 years of industry experience)

Peter U. Karlsson – Senior Vice President Sales (more than 14 years of industry experience)

The SYSTIMAX Solutions' product portfolio includes: the UTP copper SYSTIMAX GigaSPEED® X10D Solution capable of supporting 10 Gigabit Ethernet, the copper based GigaSPEED XL Solution, the fiber-optic LazrSPEED® and TeraSPEED™ Solutions, the intelligent patching iPatch® System, and the SYSTIMAX AirSPEED™ Solution, an enterprise wireless LAN solution.
